

Poster/Presentation Title for HPC User Symposium

John Doe, and Jane Doe

High Performance Computing, Louisiana State University, Baton Rouge, LA 70803

Abstract

This is a template for abstract submission for the 2nd Annual HPC User Symposium where all authors are from the same institution. Please follow the guidelines below to ensure uniformity of abstracts in the Symposium Book of Abstracts. If you are an experienced L^AT_EX users, please do not make additional changes to the format.

1. Enter your poster/presentation title in the first line .
2. List all authors on the second line and underline the presenting author.
3. Everything up to the Abstract should be center aligned.
4. Please do not change the font size/type. The Word template is created to match the L^AT_EX as best as it possibly can.
5. Your abstract should only be one page long and should not contain any other header or footer.
6. If you want to add figures and/or references go ahead but make sure that the abstract is not more than one page.
7. Abstracts more than one page will not be accepted.
8. Please do not add page number, the software to create the Book of Abstracts will add page numbers.
9. You can either submit the .tex file or convert it to pdf and submit the pdf file.
10. Upload your abstract at <http://www.hpc.lsu.edu/users/symposium/index.php> (preferred) or email it to lsuhpchelp@gmail.com with the email subject Poster Abstract for HPC User Symposium.
11. The pdf file should be renamed as LastName_FirstName-Abstract.pdf for example Doe_John-Abstract.pdf.
12. If you want to be considered for a 15-30 min talk, make sure that you select the correct option in your registration form.
13. If your LastName and FirstName is not unique (rare case), you will not be able to upload your abstract. Please add a number to your abstract so that it will be uploaded.
14. **Please do not email us the pdf/ppt of your poster. You will need to bring your poster with you on June 12th. Poster Board size is 4ftx4ft.**
