## Abstract

This is a template for abstract submission for the 2<sup>nd</sup> Annual HPC User Symposium. Please follow the guidelines below to ensure uniformity of abstracts in the Symposium Book of Abstracts

1. Enter your poster/presentation title in the first line .
2. List all authors on the second line and underline the presenting author.
3. If authors are from the same institution, omit the superscripts after the names.
4. You can use symbols instead of numbers if authors are affiliated with more than one institution.
5. Author Affiliations should be italics
6. Everything up to the **Abstract** should be center aligned.
7. Please do not change the font size or type (CMU Serif). The size and type are created to be similar to the ones produced by LaTeX. If you know what LaTeX is, please consider using the LaTeX template.
8. Your abstract should only be one page long and should not contain any other header or footer.
9. Please do not add page number since this will mess up the page numbering in the Book of Abstracts.
10. If your computer does not have CMU serif fonts, upload your .doc or .docx file and I'll convert it to pdf else consider converting to pdf and upload the pdf file
11. Upload your abstract at <http://www.hpc.lsu.edu/users/symposium/index.php> (preferred) or email it to [lsuhpchelp@gmail.com](mailto:lsuhpchelp@gmail.com) with the email subject "Poster Abstract for HPC User Symposium".
12. The pdf file should be renamed as LastName\_FirstName-Abstract.pdf for example Doe\_John-Abstract.pdf.
13. In the very rare case that your Name is not unique to other user, you will not be able to upload your abstract. Please add a number following your name to make it non-unique and upload the abstract file.
14. **Please do not email us the pdf/ppt of your poster. You will need to bring your poster with you on June 12<sup>th</sup>. Poster board size is 4ftx4ft.**
